Instructional Designer Job Advertisement
November 2012

STRUCTURAL collaborates with clients to improve infrastructure by combining our award-winning specialty construction, repair and maintenance services with our proprietary technologies to provide innovative solutions for demanding engineering and construction challenges.

We are currently recruiting for an Instructional Designer for our Knowledge Management team, to be based in our Hanover, MD corporate office. In this newly created position, you will be responsible for designing, developing and refining curriculum and materials for both instructor-lead and web-based trainings. You will also work with subject matter experts to define and organize learning content and outcomes.

Successful candidates must meet the following criteria to be considered for this position:
- College degree in Education, Instructional Design or related field or,
- Minimum three years of experience in a curriculum development, teaching, or training role
- Hands-on experience using Microsoft Power Point and Adobe Captivate (Adobe Illustrator, Flash, Premiere and InDesign is a plus)
- Demonstrated ability to create text, graphics, animations and layouts that support learning
- Previous experience working with subject matter experts to define and organize learning content

STRUCTURAL is a team-managed company offering a highly progressive, innovative and challenging environment in which to champion your skills. Our ideal candidate is innovative, creative and highly organized. We are offering a tremendous career opportunity to an energetic, enthusiastic team player who thrives in a dynamic, fast-paced, positive work environment! EOE/M/F/D/V
