How do I update my TurningPoint Cloud software on my computer?

In order for the clicker Blackboard integration (e.g. downloading participant lists and sending grades to Blackboard) to work on a P.C. or Mac, users must have the latest version of TurningPoint Cloud installed on their computers.

- PC Version (7.5.8)
- Mac Version (7.5.5.3)

Tell Me

1. Open TurningPoint Cloud on your computer and sign into the software using your Turning Account credentials.
2. From the dashboard, click on the TurningPoint Cloud logo at the bottom center of the page. The version of TurningPoint Cloud you current have installed on your computer will appear at the top of the page (e.g. 7.5.5.3).

3. Click Check for Updates. Available updates will appear, and you will be able to update the software on your PC or Mac from this screen.

Release Notes for the latest version of TurningPoint Cloud can be accessed from the TurningTechnologies Support Page.
