What do the signals mean on my clicker?

Tell Me

The light on the device will flash different colors to signal different events:

- **Green**: Confirmation that your instructor's receiver has received a response from your ResponseCard.
- **Orange/yellow (single flash)**: Polling is not open; with the ResponseCard RF LCD, you will also see a circle with a line through it in the LCD window.
- **Orange/yellow (multiple flashes)**: Response is in the process of sending.
- **Red**: Your response is not received by the instructor's receiver; make sure your ResponseCard is set to the right channel and that your instructor is asking a question.
- **Green and red**: Your ResponseCard is in channel changing mode.
