How do I Webcast or Broadcast a live video using Panopto?

This feature allows viewers to watch a live Panopto recording or broadcast. A webcast link or URL can be created in advance of the recording or broadcast.

Tell Me

1. From your Panopto link in Blackboard, click on the Create button
2. Select Webcast from the available options
3. Create Webcast window opens, allowing you to Title your session, and select the folder to record to
4. Check the "Anyone on the web can see this" box (if individuals outside of your course, with no Blackboard access, are allowed to view the webcast)
5. More options are available within the Sharing settings of the Webcast for additional viewer access rights
6. Optional: add a description in the box provided
7. Click on Create
8. From the Webcast Overview tab, you can copy viewer link or URL (for email invitation, text or course embed)
9. Scroll down to the Actions section within the Overview tab, and click on Record to begin the live broadcast or recording
