How do I open a Mobile Responses Session for my students?

Tell Me.

To start the session:

1. Open the TurningPoint desktop application
2. Sign into your TurningPoint account
3. In the upper right area of the Dashboard, click on Enabled under Mobile Responses.
4. Click Reserve to create a custom session ID or select Random to generated a random Session ID
5. When you are ready to start the session, click Start Session

   Note: The ResponseWare session window will open up displaying the session ID for your students to connect to.

To end the Session:

1. Click on the Session ID listed under Mobile Responses
2. Click End Session
