How do I connect to the Virtual Desktop environment via my Web-Browser?

Tell Me

1. Start by opening the Virtual Desktop web portal in your Web browser and selecting VMWare Horizon View HTML Access from the available options.

2. After a moment you will be redirected to a log-in prompt. Enter your myUMBC username and password in the corresponding fields and click Log In to begin connecting to the virtual environment.
3. After authenticating, double-click on the type of lab PC you would like to use in order to connect to a desktop.

4. Your Desktop should become available after a few moments.
