Adobe Creative Cloud

The old UMBC Adobe license (didn't require you to be signed into your UMBC Adobe account to use) will cease to function on 02/29/2020. If you have any apps from the old license installed, installing and signing in to the Creative Cloud desktop app will automatically update them to use the current license.

### Description
Adobe Creative Cloud is a software as a service offering from Adobe Systems that gives users access to a collection of software applications for graphic design, video editing, web development, photography, and cloud services. This is accomplished through the Creative Cloud desktop application, a cloud-based software licensing and delivery system for Adobe applications and services.

### Eligibility
Faculty/Staff/Student Staff for academic and professional use

### Version
Latest

### System Requirements
Creative Cloud system requirements

### License Usage & Licensed Components
Please be aware of the use limitations of Creative Cloud apps (more info [here](#)). The installation packages provided here are for use by UMBC faculty/staff members on UMBC owned computers only. Information on how to obtain Adobe applications for use on non-UMBC owned faculty/staff personal devices can be found in the Adobe Creative Cloud Personal Use page.
