Where is my course after the Ultra Experience upgrade?

Finding Your Course

1. **Browse by term.** Move between past, current, and upcoming courses using system defined terms. At the bottom of the list, you’ll find a page selector to navigate through longer lists.
2. **Change the filter.** Click on down arrow next to the Current Courses title to switch to another term. If you navigate to another page, all courses show again.
3. **Search your list.** The search function finds courses on the current page that match your search term.

About the Courses page

What else can you do on the Courses page?

**View your favorites quickly.** If you access a course frequently, you can select the star icon to add it to your favorites so it appears at the top of your course list. Select the star icon again to remove a course from your favorites.

**Manage your course availability.** Point to a course card menu to access management settings. Select the lock icon to change if your course is open and ready for students or remains private while you work on it.

About the Course Cards

Original courses are indicated by a gray bar with the label “Original Course View” while Ultra courses have a color bar. You cannot choose the color for the course card. Each course card lists the course title and instructor.

- If your course has multiple instructors, select View all for a list.
- To review the courseID, click More info. Please note: Course descriptions are not loaded at this time by the course creation process.
