How do I delete a page in my Confluence wiki space?

Tell me

1. Go to the page.
2. Go to the **Remove Page** option. To do this:
   a. Go to a page in the space, open the **Tools** menu.
   b. Select **Remove**. The 'Remove Page' screen opens. You will be prompted to confirm the action. The 'Remove' menu option will only appear if you have permission to remove this page.

- Pages deleted in this way are stored in the trash and can be recovered by a space administrator. Purge the trash to remove the page permanently.
- If the page you are deleting has any child pages they will be moved to the root of the space.
