**SPSS Installation**

**SPSS install instructions**

If you need more detailed information about installing SPSS after following the instructions below, you can take a look at IBM's official [Mac](#) and [Windows](#) install documentation.

1. Open the SPSS installer and follow the onscreen instructions to install SPSS (at the end of the installation, make sure Start SPSS Statistics License Authorization Wizard now is checked and then click Finish).
2. When the SPSS Statistics License Authorization Wizard opens, select Authorized user license and then click Next.
3. Enter the appropriate student or faculty/staff authorization code into the Enter Code area and then click Next.
4. Once the code successfully authorizes, click Next to proceed and then click Finish to complete the licensing.
