Adobe Creative Cloud

Description
Adobe Creative Cloud is a software as a service offering from Adobe Systems that gives users access to a collection of applications for graphic design, video editing, web development, photography, and cloud services. This is accomplished through the Creative Cloud desktop application, a cloud-based software licensing and delivery system for Adobe applications and services.

Eligibility
Faculty, Staff, and Student Staff

Latest

System Requirements
Creative Cloud system requirements

Licensed Components
Please be aware of the use limitations of Creative Cloud apps (more info here).
List of available Adobe desktop apps for UMBC owned computers

How to install Adobe apps on UMBC owned Computers
1. Check if the Creative Cloud desktop app is already on the computer (it is named Adobe Creative Cloud and can be found in either the Desktop or Start Menu in Windows or the Applications folder in Mac). If you have it, skip step 2 and go directly to step 3.
2. Install the Creative Cloud desktop app (Mac, Windows).
3. Install the Adobe applications you want (Mac, Windows).
