How do I install Office 365 on a PC?

1. Sign in here with your myUMBC credentials.

2. Click Install Office.

3. There are two versions of Office 365, the 32-bit version and the 64-bit version (choosing which version to get):
   - To get the 32-bit version of Office 365, click Office 365 apps and then proceed to step 4.
   - To get the 64-bit version of Office 365, click Other install options. Then, in the Office apps & devices section, click View apps & devices. Next, in the Office section, select 64-bit from the Version drop-down list and then click Install Office.
4. Follow the onscreen instructions which explain how to locate the installer and begin the installation (click the installer that has downloaded to start the installation).

5. Office 365 will begin installing, which may take several minutes.
6. Click **Close** to complete the Office 365 installation.
