How do I change the channel on my clicker?

Tell Me

These instructions are for Turning Technologies ResponseCard RF clickers.

1. Press the CH button in the lower left hand corner of your clicker.
2. The light in the right corner will flash red and green.
3. Enter the two digit channel code.
4. Press CH again.
5. When the ResponseCard receives the new channel, the light will turn green.
